

# Soy Isoflavones

Soy isoflavones are polyphenolic compounds found in soybeans. We offer two ways of analysis for soy isoflavones.

1: Total soy isoflavones analysis, 2: Respective soy isoflavone analysis

	Total soy isoflavones analysis	Respective soy isoflavone analysis
Origin	Soybeans	
Required Sample Amount	20 g	
Turnaround Time	2-3 weeks	
Analytical Method	HPLC	
Quantification Limit	0.5 mg/100 g	
Comment	The sum of soy isoflavones is determined.	The content of each isoflavone(Daidzein, Daidzin, Genistein, Genistin, Glycitein, Glycitin, etc. ) is determined.
